Fabulous Friendships

Living Fully With Our Friends

Fabulous Friendships shows us why friendships are our real “trust funds.”

Led by SARK and Karen Drucker, dear friends who consistently learn and transform together, we engage in spontaneous activities, playful interactions, and intimate sharing to reveal how we can creatively celebrate and expand deep friendship with ourself and others.

We focus on three friendship areas: self-friendship, friendship challenges, and friendship integration and celebration. Using interactive art, music, and words, we learn how to:

- Apply exquisite self-care and practice new self-caring methods
- Practice centering in solid self-friendship
- Investigate new ways to expand and deepen our current friendships
- Navigate conflict with friends
- Practice making new friends
- Wildly celebrate all our friendships

Come on your own, with a friend, or many friends. We leave transformed, inspired, and with a map of how to continue and expand fabulous friendships in our life.
