

## A Conversation With Karen Drucker

Have you ever wondered what it would take to be a musician, a music director, or a Posi artist? I hope you will join me for a one-hour teleconference talking about what it is like to be a working, traveling, positive message musician or music director, and how to make a difference with your music.

Tuesday, March 6th at 5:00 Pacific  
6:00 Mountain 7:00 Central 8:00 Eastern

*Some of the topics that will be covered:*

- Who you are and what is your message
- Getting clear on what your music ministry is all about
  - The relationship between you and your minister, congregants/church
- What gets in the way of sharing yourself and your message
  - Questions and answers to your questions

After twelve years as a music director for three different New Thought Churches, and speaking and singing at hundreds of churches, I would love to share the insights and knowledge I have acquired from being out in the world as a successful working musician.

*This is a love-offering event - you can attend for free or pay through PayPal (to the email address [staff@karendrucker.com](mailto:staff@karendrucker.com)) any amount if you received something that will benefit you!*
