

Ways to Use Karen's Music

I am so happy when I hear from people how my music has helped them in a workshop setting, class or a retreat. I am a firm believer that music can truly allow whatever message, exercise, or process that you are going through allow you to go deeper and open up your heart. So with that in mind, I am always encouraging anyone to use my music for any kind of event that they might have.

My music is used for:

Speakers, Authors and Ministers: Many people will use a specific song as their “theme” song after they are introduced and walking towards the stage, and my songs are used during their talk to transition from one theme to another.

Conferences: As people are coming in or out of the session, some of my high energy inspirational lyrics can help set the tone for the event.

Retreats and workshops: Specific songs have helped anchor the subject matter for the class.

Hospice: Many Hospice chaplains and caregivers use my music through all the stages of a Hospice patient.

NIA: dance technique classes

Meditation and Yoga Classes

Chiropractic: in the office, and with patients.

Wellness Centers: breast cancer clinics, hospitals, recovery programs,

Videos or DVD presentations: People have used my songs to underscore their presentations or for documentary purposes.

Specific examples of my songs being used:
